

Directions

From Katipunan, Quezon City, it usually takes 1 to 1.25 hours or 34KM to get to Mount Purro Nature Reserve.

There are 2 route options:

- A. Via Sapinit Road** - This is the shorter and easier route. All vehicle types can pass here with care.
- B. Via Boso-Boso Road** - SUV and MPV are recommended since there are stretches of uneven cemented roads. Sedans, though possible, will have difficulty. You may use this as an alternative route.

Please be advised that the only reliable telco provider in the area is SMART. You may use **Waze** – search for “Mount Purro Nature Reserve” – but it is better to have this document too in case telco signal becomes difficult.

For any needs, you may contact 8542-3005 or 0949-3981799.
