Our Story

MPNR Foundation, Inc. (MPNRFI) was founded by Mr. Alberto “Lolo Toto” Malvar in 2018, alongside his family, and a group of like-minded partners and experts dedicated to environmental and social development. Lolo Toto’s involvement in the community dates back more than 30 years, with him and his family residing in MPNR in Brgy. Calawis, Antipolo City since the 1990s. During this time, they actively engaged with the local community, contributing to environmental stewardship.

MPNRFI has been actively implementing a community-based reforestation program, with the goal of making it economically viable, sustainable, and replicable across multiple sites. The foundation envisions its impact extending beyond the local community, benefiting the National Capital Region (NCR) and nearby provinces within the Sierra Madre Mountain Range. Over the years, the ecopark within MPNR has witnessed the growth of 700,000 trees, a significant increase from the initial 100,000 trees visible in satellite photos. From 2022-2023, MPNRFI has undertaken the planting of 135,124 additional native and agro-forest trees across 200 hectares in Barangay Calawis, Antipolo City. This area is integral to the Ancestral Domain of the Indigenous Peoples, the Dumagats.
